

Program

The Divided Loyalties Program is an educational program designed for separating, divorcing, and divorced parents. Our program has been court approved in Lake, Orange, Osceola, and Seminole Counties.

Purpose

This program provides information about the divorce process in hopes of fostering effective coping by parents and children, improving parent/child relationships, and facilitating cooperative parenting. A further aim is to reduce the number of contested parenting and time-sharing disputes.

Why

Approximately 1.2 million children experience divorce each year in the United States. It is estimated that approximately 10% of all divorces involve parenting and time-sharing disputes, not only does this present an increasing burden on the court, but it can have an adverse economic and emotional impact on all parties involved. Research studies show that a stable relationship with both parents after divorce increases the child's successful adjustment to divorce.

We suggest that you register early because space is limited.

We accept cash, checks, and major credit cards.

Agenda

The four-hour program is scheduled on one weekend day. The information will be presented in four sections using mental health professionals experienced in divorce-related issues. Written materials, including information on community resources, will be provided. A certificate of completion will be given to each participant.

Section I: The Impact of Divorce on Adults

The first section will explore the adult experience of separation and divorce, including how the parents' response affects children. Spouse abuse issues will be addressed.

Section II: The Legal Process

The second section will explain the legal system and the potential impact of contested parenting and time-sharing on the family.

Section III: The Impact of Divorce on Children

The third section teaches parents about the immediate and potential long-lasting effects of divorce on children of different ages. This section will address what behavior to expect from children, their specific needs at each stage, and how to assist them through the divorce process. Child abuse issues will be addressed.

Section IV: The Business of Parenting

The fourth section provides guidelines for appropriate communication between parents to reduce stress on their children.
